PARCEL A

- CDPH expects to complete their dust wipe sampling field work by this week. As of last Monday, they have taken approximately 225 wipes from 75 homes; and, so far, they have not seen anything.
- We are still hoping to hear more about the meeting Supervisor Walton's office hosted with the Navy and some residents on Wednesday, March 13th. We are hopeful these conversations lead to more established engagement with impacted members of the public, and EPA is prepared to support these efforts, if asked.

FIVE YEAR REVIEW/ PARCEL G

- Last Friday, March 13, the Navy sent us a letter. They informed us they plan to move forward with using RESRED, instead of the PRG Calculator tool we have been in discussions with for two years. They also informed us they plan to implement the Parcel G Work Plan using the current remedial goals in the Record of Decisions (ROD), even though it's unclear these remedial goals continue to be protective of human health.
- As we discussed last week, we are working to issue a letter to the Navy with a recommended path forward on the Five-Year Review report and the Parcel G Work Plan. We share the City's priority to have the Navy in the field as soon as possible; and, we also hope to proceed in a manner that is transparent to the public.
- We also wish to continue discussions with you about future reuse plans of the onsite buildings. We decided to take some time to schedule these discussions. We are working to schedule a pre-meeting with the EPA team and the City of SF team in April, followed by a meeting with decision-makers in early May. I understand Yolanda will reach out to you (or your calendar manager) soon.

COMMUNICATIONS/MEETINGS

- Both your offices will be courtesy copied on our letter to the Navy. Once we issue the letter, we will share it with Congressional leaders, Supervisor Walton, and Dr. Hunnicutt.
- It doesn't seem like HPNS is on the agenda for tonight's next HPS CAC meeting. Kasheica?
- Does the City have any communications/meetings updates?

MAYOR/SUPERVISOR

- Are there any updates on the independent UC Berkley/UCSF panel to review CDPH's work?

NEXT MEETING

- April 1, 2019 – Angeles/Lily will be out of town. Should we continue or cancel?
